

Obinna Nwokocho

Currently a student at the University of Texas at Dallas. Proficient in web design and audio production with a little experience in developing and testing software. Designed and developed multiple projects and contributed to the success of 2019's HackUTD.

Projects

- 2017-08 - 2017-12** **ARcade** – Built an Augmented Reality application
- **Unity, Vuforia, C#**
 - Created scripts using **C#** to use a phone's camera to scan the environment and project objects onto those environments.
 - Set up a simple server and lobby to allow multiple users to interact with each other.
 - Won first place in ACM Projects, worked with a team of five using the **Agile** Software development cycle.
- 2017-05 - Present** **TODO** – A social Media API whose goal is to keep track of user activity as well as connect them to events and sites in their area
- **NodeJS, MongoDB, pug**
 - Used **JavaScript** and **pug** to set up webpages
 - Used **MongoDB** to create various tables to hold user information
 - Used Various API's to display content to the user.
- ViewAR** – An Augmented reality platform that allows consumers to view products in 3D on their phones.
- **Unity, C# Vuforia, HTML, CSS, JavaScript, jQuery, Bootstrap 4**
 - Created an Augmented Reality catalog using image targets to display 3D objects in real-time.
 - Developed responsive, one-page demo furniture catalog site to demonstrate industry use cases.
 - Won second place overall art CodeRED Exploration 2017, a University of Houston Hackathon.

Experience & Roles

- 2016-08 - 2018-08** **Papa Johns** – Customer Service Representative
- Accounted for and balanced daily earnings
 - Worked with coworkers to increase production efficiency
 - Created a welcoming environment for customers that promoted the service of the company.
- 2018-08 - Present** **HackUTD Industry Coordinator**
- Helping plan the largest Hackathon in North Texas and overseeing communication with potential sponsors for the event.

Education

- 2016-08 - Present** **B.S in Software Engineering** – University of Texas at Dallas
- Expected May 2020
